

MASS-APP-001-V01

Relationship Foundations Version 1.0

Executive Briefing

Establishes the constitutional foundation for the MASS CRM / Relationship Intelligence Platform.

Purpose

Define the enterprise relationship model for people, organizations, accounts, and interactions.

Core Principles

Single source of relationship truth, identity integrity, contextual intelligence, lifecycle awareness, and governance.

Core Capabilities

Relationship records, identity resolution, contact lifecycle, organizational hierarchy, interaction history, and relationship health.

Architectural Boundary

Defines relationship intelligence only; execution and workflow remain governed by their respective application services.

Version 1 Scope

Foundational entities, canonical relationship model, lifecycle states, ownership, and governance.

Definition of Done

Relationship Foundations are fully defined for enterprise production.

Status
