Enterprise Awareness

Version 1.0

Executive Briefing

Enterprise Awareness provides immediate understanding of organizational condition before users enter operational workspaces.

Enterprise Awareness Philosophy

Awareness precedes analysis. The Cockpit summarizes enterprise conditions before presenting detailed data.

Enterprise Weather

A synthesized indicator describing overall business conditions using intuitive language such as Sunny, Watch, Pressure, Recovery, or Storm.

Enterprise Vital Signs

Survival, Performance, Momentum, and Opportunity form the primary enterprise health indicators.

Enterprise Confidence

A governed confidence score derived from financial, operational, customer, relationship, staffing, and system health signals.

Morning Executive Brief

A personalized daily briefing summarizing what changed, what matters today, and recommended priorities.

Executive Debrief

An end-of-day reflection summarizing accomplishments, unresolved items, lessons learned, and tomorrow's priorities.

Organizational Pulse

Continuously measures enterprise rhythm, departmental health, collaboration, and operational stability.

Opportunity Engine

Surfaces growth opportunities including partnerships, customer follow-ups, renewals, marketing opportunities, and operational improvements.

Priority Surface

Displays the highest-value actions requiring attention while suppressing unnecessary noise.

Progressive Awareness Model

Information is revealed in layers: Immediate Awareness, Operational Awareness, and Analytical Exploration.

Platform Consumption Map

Consumes Identity, Security, AI, Analytics, Notifications, Relationships, Documents, Knowledge, Workflow, and Communications services.

Constitutional Boundary Statement

Enterprise Awareness presents governed intelligence but does not execute operational work or duplicate departmental applications.

Version 1 Scope

Delivers Enterprise Weather, Vital Signs, Confidence, Briefings, Opportunity Engine, Priority Surface, and role-aware awareness widgets.

Definition of Done

Enterprise Awareness is complete when users can understand organizational condition within seconds of opening MASS HQ.

Status

Complete
