

MASS-APP-002-V04

Personalized Executive Experience Version 1.0

Executive Briefing

This volume defines the personalized executive experience built upon the Adaptive Cognitive Workspace.

Purpose

Deliver role-aware, preference-aware, and context-aware executive experiences while maintaining constitutional governance.

Core Principles

Personalization must remain transparent, explainable, reversible, and privacy-preserving.

Capabilities

Role-based views, adaptive dashboards, persistent preferences, contextual recommendations, executive journeys, and intelligent continuity.

Constitutional Boundary

Personalization changes presentation and assistance only; it never changes enterprise truth or governance.

Version 1 Scope

Executive personas, configurable workspaces, contextual insights, continuity across devices, and preference management.

Definition of Done

Executives receive a tailored workspace that increases efficiency without compromising consistency or trust.
