

MASS-APP-002-V05

Intelligent Decision Support Version 1.0

Executive Briefing

Defines the decision support layer that transforms enterprise awareness into actionable executive guidance.

Purpose

Deliver explainable recommendations, prioritization, scenario evaluation, and confidence-based guidance.

Core Principles

Recommendations are transparent, evidence-backed, auditable, and remain advisory.

Capabilities

Decision scoring, scenario comparison, impact analysis, risk visualization, confidence indicators, and executive recommendations.

Constitutional Boundary

Decision support never replaces executive authority or alters enterprise records.

Version 1 Scope

Recommendations, simulations, confidence metrics, rationale summaries, and action prioritization.

Definition of Done

Executives receive trustworthy guidance that improves decision quality while preserving governance.
