

MASS-APP-002-V07

Enterprise Cognitive Operating System

Production Specification • Version 1.0

Executive Vision

This volume culminates the Executive Cockpit series by defining MASS as an Enterprise Cognitive Operating System (ECOS): a constitutional intelligence layer that unifies awareness, reasoning, personalization, decision support, and governed execution into a continuously learning executive environment.

Mission

Transform fragmented enterprise software into a single cognitive operating environment where every decision, workflow, document, relationship, and autonomous action is coordinated through constitutional intelligence.

Foundational Pillars

Enterprise Awareness; Adaptive Cognitive Workspace; Personalized Executive Experience; Intelligent Decision Support; Autonomous Execution Governance; Continuous Organizational Learning.

Cognitive Loop

Observe enterprise signals → Understand context → Reason using constitutional policies → Recommend actions → Execute approved work → Measure outcomes → Learn organizational patterns → Improve future reasoning.

Enterprise Outcomes

Executives gain a living operational picture of the organization, measurable confidence in recommendations, governed automation, institutional knowledge preservation, and continuously improving organizational intelligence.

Architectural Principles

Constitution before optimization; explainability before automation; trust before autonomy; enterprise memory over isolated applications; composable services over monoliths; humans remain accountable for strategic decisions.

Version 1 Deliverables

Defines the constitutional destination of the MASS Executive Cockpit architecture and establishes the Enterprise Cognitive Operating System as the strategic foundation for all future application families.

Definition of Done

MASS operates as a constitutional Enterprise Cognitive Operating System capable of coordinating enterprise awareness, cognitive adaptation, executive reasoning, and governed execution through a unified architecture.

Series Completion

MASS-APP-002 Executive Cockpit Foundation Series (V01–V07) Complete.
