

MASS-APP-003-V06

Operational Performance & Analytics Version 1.0

Executive Briefing

Defines the enterprise operational performance and analytics framework for measuring execution effectiveness.

Purpose

Provide governed performance measurement, KPI management, trend analysis, benchmarking, and continuous operational improvement.

Core Principles

Accuracy, transparency, explainability, accountability, constitutional governance, and measurable outcomes.

Core Capabilities

KPI dashboards, operational scorecards, trend analysis, benchmarking, predictive analytics, executive reporting, and AI-assisted insights.

Architectural Boundary

Provides analytics and performance intelligence without replacing operational execution or authoritative transaction systems.

Version 1 Scope

Performance metrics, analytics services, governance controls, reporting framework, integrations, and enterprise APIs.

Definition of Done

Operational Performance & Analytics is fully defined for enterprise production deployment.

Status
