

MASS-APP-003-V07

Operations Governance Version 1.0

Executive Briefing

Defines the constitutional governance framework for enterprise operations across the MASS platform.

Purpose

Ensure operational planning, execution, resources, assets, and analytics remain governed, auditable, secure, and continuously improved.

Core Principles

Constitutional stewardship, accountability, traceability, policy compliance, explainability, least privilege, and continuous optimization.

Core Capabilities

Operational policy management, approvals, delegation controls, compliance monitoring, audit trails, governance dashboards, risk management, and executive oversight.

Architectural Boundary

Provides governance and oversight without replacing operational execution systems or authoritative business records.

Version 1 Scope

Governance framework, policy lifecycle, compliance validation, audit services, reporting, enterprise integrations, and APIs.

Definition of Done

Operations Governance is fully defined for enterprise production deployment.

Status
