Classification	Internal
Revision	Initial Release

Standard Five-Page Engineering Structure

- 1. Purpose — Mission, scope, responsibilities.
- 2. Architecture — Components, ownership, dependencies.
- 3. Implementation — Version 1 requirements and constraints.
- 4. Integration — Inputs, outputs, AI participation, interfaces.
- 5. Completion — Success criteria, implementation checklist, future inventory.

Publishing Standard

Every Engineering Library volume must be implementation-ready, constitutionally faithful, concise, professionally formatted, and suitable for direct use by engineers and AI builders. Five engineering pages is the default maximum, excluding cover, document control, table of contents, and appendices.

Motto

Engineering transforms the Constitution into reality.
